5

Slowly tilt the upper basket all the way back
(**ATTENTION, please carry out the work step with two people!**)

6

Insert the deflection roller in the **recess** recess (all the way to the front), **pre-drill holes (3 mm)** and then screw tight

ASSEMBLY INSTRUCTIONS RETURN SPRING

Subsequent installation

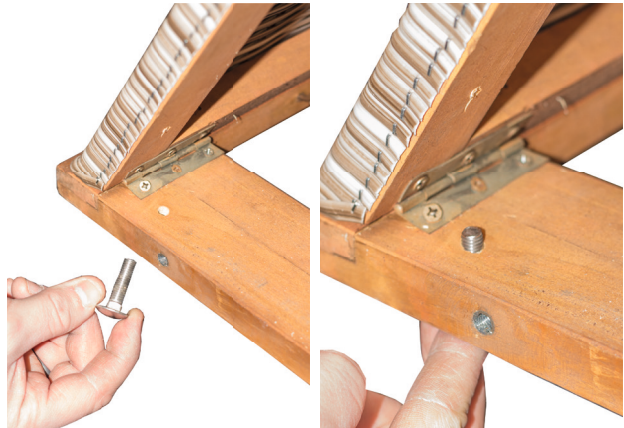

7

Place the bracket on the upper basket (hook down), **pre-drill holes (3 mm)** and then screw tight

8

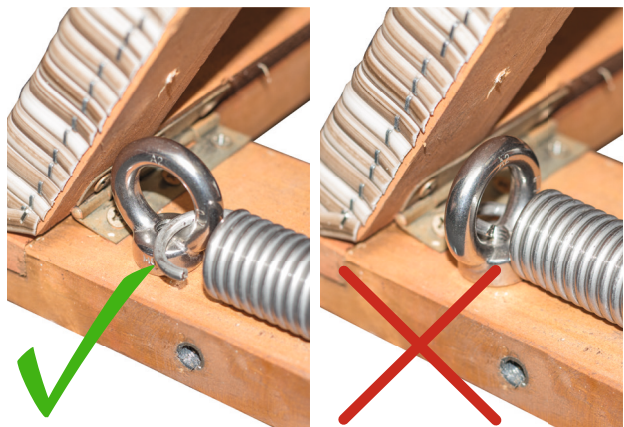

Put the screw through the hole in the **lower basket** (**ATTENTION:** tilt the beach chair slightly with 2 people to do this)

9

Screw the spring tight

10

ATTENTION: Pay attention to the orientation of the eyelet!

11

Thread the wire rope through the pulley and hook it into the hook on the upper basket (**ATTENTION:** thread the rope in at the front)

12

Carefully bend the hooks on the upper basket together with pliers. Reassemble the side parts, handles and adjustment handles.
